

Supplies for decorated box class

Measure around your box.

Decide what trims, laces, and whatever else you want and cut enough plus a bit extra to go around your box.

You may want to cover the top of the box with a patterned paper. Bring a paper big enough to cover the top of box.

If you want to cover with fabric bring enough to cover the top of your box and decoupage medium.

You can use tacky glue or sticky double sided tapes to attach your trims to the box. But you will need the tacky glue for other attaching.

To embellish the top you can bring premade flowers,

laces or pieces of fabric to sew into circle flowers. If so, bring a needle and thread to do this or you can pre make them,

Ribbons, trim pieces for bows, and any other embellishments you want to use such as buttons, pearls, gems, fabric leaves.

This is your box so have fun with it!
