

SIMPLE DRAWSTRING BAGS FOR CHILDREN'S RECEIVING HOME

Use about a yard of any fabric, but heavy-duty enough to hold kid's toys and belongings and suitable for toddlers through teens. The finished size of a to-go bag is about 24"x36."

Sew together to enclose three sides kind of like a pillowcase.

Double fold the top down to make a casing to hold the drawstring.

Sew, leaving a small opening to insert the drawstring.

Insert the drawstring. The drawstring can be cording or a fabric tube, whatever works so the kids can transport their belongings in something other than a garbage bag.
